FISCAL ANALYSIS

ASSUMPTION

Officials of the **Department of Elementary and Secondary Education** assume there would be no fiscal impact to their department or to local school districts.

Officials of the **Platte County Planning and Zoning Commission** stated there would be no fiscal impact to Platte County.

Oversight assumes this proposal is permissive, and would require voter approval before a school district planning proposal could be implemented.

DESCRIPTION

Under current law, a county commission is authorized to appoint a temporary planning commission. The temporary commission creates a planning proposal for the county that must be approved by the voters before implementation. This bill allows temporary planning commissions for school districts. The temporary plan will only affect the school district.

The members of the temporary school district planning commission will be the highway engineer, one person appointed by the county commission, and 3 residents of the affected school district. If the plan is approved by the voters, a 3-member school district planning commission is elected at the next countywide election. The county highway engineer will be an ex officio member of this commission.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
